Case Log Examples Large Animal Internal Medicine

Case Log #1
Date: 00/00/0000
Patient ID XXX
Species/Breed: Equine/Thoroughbred
Age: 3 months
Sex: female
Weight in kg: 189kg
Diagnosis: Lawsonia (PCR Positive)
Advanced Skills & Procedures I performed: plasma transfusion, implement isolation protocol, full physical exam
Advanced Skills & Procedures I assisted: ultrasound imaging and measurement of intestinal tract wall
Outcome: discharged

Case Log #2
Date: 00/00/0000
Patient ID XXX
Species/Breed: Cameli/alpaca
Age: 20 years
Sex: female
Weight in kg: Unavailable
Diagnosis: Neoplasia
Advanced Skills & Procedures I performed: drug/fluid calculation and preparation/administration (oxytetracycline, thiamine, dexamethasone, diazepam, etc.)
Advanced Skills & Procedures I assisted: Neurologic exam, lumbo-sacral spinal tap
Outcome: Euthanized

Case Log #3
Date: 00/00/0000
Patient ID XXX
Species/Breed: Bovine/Holstein
Age: 6 years
Sex: female
Weight in kg: Unavailable
Diagnosis: Lymphoma
Advanced Skills & Procedures I performed: passed Kingman tube and refluxed rumen contents (40 gallons), provided nursing care to downer animal, pain assessment and management, physical exam
Advanced Skills & Procedures I assisted: placement and management of downer cow in sling
Outcome: Euthanized
Case Log #4
Date: 00/00/0000
Patient ID XXX
Species/Breed: Equine/Saddlebred
Age: 7 years
Sex: castrated male
Weight in kg: 430kg
Diagnosis: Pleural pneumonia
Advanced Skills & Procedures I performed: full physical exam, sample collection and handling for cytology evaluation
Advanced Skills & Procedures I assisted: thoracic radiographs, transtracheal wash, trocar chest tube placement
Outcome: Euthanized

Case Log #5
Date: 00/00/0000
Patient ID XXX
Species/Breed: Camelid/camel
Age: 1 day
Sex: male
Weight in kg: Unavailable
Diagnosis: Failure of passive transfer
Advanced Skills & Procedures I performed: plasma transfusion, administered feedings via nasogastric tube, reverse isolation protocols, physical exam, restraint
Advanced Skills & Procedures I assisted: placement of nasogastric feeding tube
Outcome: discharged

Case Log Examples Equine Internal Medicine

Case Log #1
Date: 00/00/0000
Patient ID XXX
Species/Breed: Equine/Clydesdale
Age: 6 years
Sex: Female
Weight in kg: 845kg
Diagnosis: Retained placenta
Advanced Skills & Procedures I performed: oxytocin infusion preparation and administration, full physical exam
Advanced Skills & Procedures I assisted: intrauterine flushing
Outcome: discharged
Case Log #2
Date: 00/00/0000
Patient ID XXX
Species/Breed: Equine/Clydesdale
Age: 8 years
Sex: Female
Weight in kg: 783kg
Diagnosis: Fever and colic of unknown origin
Advanced Skills & Procedures I performed: cephalic catheter placement and monitoring for thrombophlebitis and abortion, full physical exam, pain assessment
Advanced Skills & Procedures I assisted: complete ultrasound
Outcome: discharged

Case Log #3
Date: 00/00/0000
Patient ID XXX
Species/Breed: Equine/Fresian
Age: 10 years
Sex: female
Weight in kg: 614kg
Diagnosis: Suspect Equine Protozoal Myeloencephalitis (based on positive Western Blot and physical exam
Advanced Skills & Procedures I performed: long-term over-the-wire jugular catheter placement, DMSO preparation and administration, physical exam
Advanced Skills & Procedures I assisted: neurologic exam
Outcome: discharged

Case Log #4
Date: 00/00/0000
Patient ID XXX
Species/Breed: Equine/Quarterhorse
Age: 6 years
Sex: female
Weight in kg: 450kg
Diagnosis: Equine Herpes Virus
Advanced Skills & Procedures I performed: prepared and administered DMSO and thiamine infusions, performed full physical exam, management of patient in sling, collected and handled CSF for analysis/cytology
Advanced Skills & Procedures I assisted: removal of down anesthetized horse from trailer, atlanto-occipital spinal tap, placement in sling, urinary catheterization
Outcome: discharged
Case Log #5
Date: 00/00/0000
Patient ID XXX
Species/Breed: Equine/Quarterhorse
Age: 5 years
Sex: male
Weight in kg: 448kg
Diagnosis: Pleural pneumonia
Advanced Skills & Procedures I performed: setup and administration of oxygen via nasal cannula, maintenance of indwelling chest tube drains, proper collection and handling of fluid samples for cytology evaluation, arterial blood gas collection and analysis, physical exam
Advanced Skills & Procedures I assisted: thoracic ultrasound, thoracic trocharization, abdominocentesis
Outcome: discharged

Case Log #6
Date: 00/00/0000
Patient ID XXX
Species/Breed: Equine/Belgian
Age: 3 days
Sex: female
Weight in kg: 60kg
Diagnosis: Sepsis, neonatal maladjustment syndrome
Advanced Skills & Procedures I performed: cleaned and bandaged wounds on extremities, fluorescein stain eyes, plasma transfusion, calculated and prepared antibiotics pantoprazole, magnesium sulfate CRI, thiamine CRI, 20% dextrose CRI, setup and maintained foal on multiple fluid lines, feedings via nasogastric tube, implemented reverse isolation protocols, restraint, physical exam
Advanced Skills & Procedures I assisted: nasogastric feeding tube placement, arterial blood gas
Outcome: Euthanized
Case Log Examples Production Animal Internal Medicine

Case Log #1
Date: 00/00/0000
Patient ID XXX
Species/Breed: Camelid/alpaca
Age: 3 weeks
Sex: female
Weight in kg: Unavailable
Diagnosis: Failure of passive transfer, septicemia, cryptosporidium infection
Advanced Skills & Procedures I performed: long-term over-the-wire jugular catheter placement, plasma transfusion, venous blood gas, neonatal reverse isolation protocol, neonatal restraint and physical exam
Advanced Skills & Procedures I assisted: complete ultrasound
Outcome: Discharged

Case Log #2
Date: 00/00/0000
Patient ID XXX
Species/Breed: Bovine/Holstein
Age: 7 years
Sex: female
Weight in kg: 750kg
Diagnosis: Hardware disease, reticular abscess, peritonitis
Advanced Skills & Procedures I performed: full physical exam, pain assessment and management
Advanced Skills & Procedures I assisted: ultrasound exam of thorax, instructed student placement of long-term over-the-wire jugular catheter
Outcome: Discharged

Case Log #3
Date: 00/00/0000
Patient ID XXX
Species/Breed: Bovine/Holstein
Age: 3 years
Sex: female
Weight in kg: 568kg
Diagnosis: Outflow obstruction due to Hemorrhagic Bowel Syndrome
Advanced Skills & Procedures I performed: obtained and handled samples for milk culture and cytology, administered magnesium sulfate and fresh cow drench via orogastric tube, full physical exam
Advanced Skills & Procedures I assisted: complete ultrasound, abdominocentesis
Outcome: Discharged
Case Log #4
Date: 00/00/0000
Patient ID XXX
Species/Breed: Bovine/Polled Hereford
Age: 5 months
Sex: male
Weight in kg: 216kg
Diagnosis: Pulmonary hypertension
Advanced Skills & Procedures I performed: collected and processed samples for cytology
Advanced Skills & Procedures I assisted: radiographs of thorax, complete ultrasound, cardiac ultrasound, abdominocentesis
Outcome: Euthanized

Case Log #5
Date: 00/00/0000
Patient ID XXX
Species/Breed: Bovine/Holstein
Age: 4 years
Sex: female
Weight in kg: 695kg
Diagnosis: Lumpy jaw due to Actinomyces bovis
Advanced Skills & Procedures I performed: collection and handling of tissue samples
Advanced Skills & Procedures I assisted: radiographs of mandible, tissue biopsy
Outcome: Discharged

Case Log #6
Date: 00/00/0000
Patient ID XXX
Species/Breed: Camelid/Llama
Age: 22 years
Sex: female
Weight in kg: 182kg
Diagnosis: Hypoproteinemia of undetermined etiology
Advanced Skills & Procedures I performed: physical exam
Advanced Skills & Procedures I assisted: transport and positioning of downer animal in sling, complete ultrasound
Outcome: Euthanized
