

## AIMVT CASE LOG FORM

Name      LAIM Production Candidate

Case Log #		Date		Patient ID +/-or #	
1		00/00/0000		XXXXX	
Species	Breed	Sex	Age	Weight in Kg.	
Camelid	Alpaca	Female	3 weeks	unavailable	

Diagnosis: Failure of passive transfer, septicemia, cryptosporidium infection.

Advanced Skills & Procedures I performed: plasma transfusion (53), venous blood gas(16k), neonatal reverse isolation protocol implementation (31), neonatal restraint (45) and complete physical examination (8).

Advanced Skills & Procedures I assisted: ultrasonographic imaging (12).

Outcome: Discharged

Case Log #		Date		Patient ID +/-or #	
2		00/00/0000		XXXX	
Species	Breed	Sex	Age	Weight in Kg.	
Bovine	Holstein	Female	7 years	750 kg	

Diagnosis: Bovine traumatic reticuloperitonitis (Hardware disease), reticular abscess, peritonitis

Advanced Skills & Procedures I performed: Complete physical exam (7), pain assessment and management as prescribed by the veterinarian (2).

Advanced Skills & Procedures I assisted: Ultrasonography of the thorax (12).

Outcome: Euthanized

Case Log #		Date		Patient ID +/-or #	
3		00/00/0000		XXXXX	
Species	Breed	Sex	Age	Weight in Kg.	
Bovine	Holstein	Female	3 years	568 kg	

Diagnosis: Outflow obstruction due to hemorrhagic bowel syndrome

Advanced Skills & Procedures I performed: Obtained and handled milk samples for culture and cytology (3), orogastric intubation and drench (57), complete physical exam (7).

Advanced Skills & Procedures I assisted: Ultrasonography (12), abdominocentesis (52)

Outcome Discharged

Case Log #	Date	Patient ID +/-or #		
4	00/00/0000	XXXXXX		
Species	Breed	Sex	Age	Weight in Kg.
Bovine	Polled Hereford	Male	5 months	216 kg

Diagnosis: Pulmonary hypertension

Advanced Skills & Procedures I performed: Collected and processed samples for cytology (5)

Advanced Skills & Procedures I assisted: Ultrasonography (12) and abdominocentesis (52).

Outcome: Euthanized

Case Log #	Date	Patient ID +/-or #		
5	00/00/0000	XXXXX		
Species	Breed	Sex	Age	Weight in Kg.
Bovine	Holstein	Female	4 years	695 kg

Diagnosis: *Actinomyces bovis* (lumpy jaw)

Advanced Skills & Procedures I performed: Collection and handling of tissue samples (49).

Advanced Skills & Procedures I assisted: Ultrasonography (12) and tissue biopsy (49)

Outcome: Discharged

Case Log #	Date	Patient ID +/-or #		
6	00/00/0000	XXXXXX		
Species	Breed	Sex	Age	Weight in Kg.
Camelid	Llama	Female	22 year	182 kg

Diagnosis: Hypoproteinemia of undetermined etiology

Advanced Skills & Procedures I performed: Physical exam (7)

Advanced Skills & Procedures I assisted: Transport and positioning of a down animal in a sling (37) and ultrasonography (12).

Outcome: Euthanized
